Our Foundation and Advanced programmes have two entry points throughout the year. Information about these dates is available through the college website. The Associate programme is available to join in August/early September each year.

## 6. I'm confused by the different levels available. How do I know which one is best for me?

The CIPD programmes are designed to be appropriate at different stages of your career. Typically, the **Foundation level** will appeal to people working at HR Administrator level or who wish to commence a career in HR. Equally, it will be suitable for people who have responsibility for staff in their current role.

When you start thinking about progressing to HR Officer/HR Adviser level you should be thinking about the **Associate level** and those working at a strategic level, HR Manager, Business Partner or Director should consider the **Advanced qualification**. As well as considering workplace experience, we will also consider the qualifications you already hold.

**If you are unsure of the most appropriate level for you, this can be discussed at the information session and interview. Please do not hesitate to apply; the level can be discussed during the information session.**
